Product Description: Fits Ford Transit Connect 2014 to present

Material Choices - Choose from the drop down menu the following material construction:

- Manufactured using quality 12mm **hardwood Plywood**, giving strength and also keeping weight to a minimum.
- 12mm **Hexaboard plywood**, giving a highly attractive as well as resilient finish. External faces are Phenolic Hexagonal Pattern the other side Smooth Phenolic, 120gm

Both options are constructed using traditional mortise and tenon joints in the front, back, base and sides making the units extremely durable and strong. Shelf Heights are adjustable in 50mm increments. The shelving units are supplied fully assembled that then simply need bolting between side panels. A full fixing kit is provided along with fitting instructions.

- Shelf Heights are adjustable in 50mm increments
- The shelving units are supplied with 6mm plywood dividers that slide into machined grooves. These can be added or removed to change the number of compartments required.
- The product is handed ie this will fit on the LH side of the van.

Notes: This unit is designed to fit around the black plastic panel shown on the photograph with this listing. You may also have to relocate the Jack that is often located behind this panel. Some trimming of end panels may be required due to differences in plylining kits. Please note that extra shelving rows can be requested for an additional cost.
