Product Description: Manufactured using quality 12mm hardwood Plywood, giving strength and also keeping weight to a minimum. The shelving units are supplied with 6mm plywood dividers that slide into machined grooves. These can be added or removed to change the number of compartments required. Supplied with shelves and table fully assembled with sides and Kickplate loose ready to bolt together with fixings supplied. Can be collected fully built (at no extra cost) from our manufacturing facility Universal fitting bracket kit included. Full range of matching van racking systems available. Can bit be fitted over wheel-arch of most vans / or where required? Size of the unit: (W)1000mm x (H) 870mm x (D)400mm. Please note that in some cases, depending on the fixing location there may be some trimming of the side panels required to fit around wheel arches etc by the installer. For more information / enquiries, please [Contact Vanrack](#) |
