Product Description: **Fits: Passenger side** The assembly consists 2Nr modules to form an installed length of 1150mm in the van. The front rack aside the driver bulkhead faces outward to enable access from outside the vehicle. The shelving system is manufactured using quality 12mm hardwood Plywood, giving strength and also keeping weight to a minimum. Constructed using traditional mortise and tenon joints in the front, back, base and sides making the units extremely durable and strong. Shelf Heights are adjustable in 50mm increments Constructed using traditional mortise and tenon joints in the front, back, base and sides making the units extremely durable and strong. Shelf Heights are adjustable in 50mm increments The shelving units are supplied fully assembled that then simply need bolting between side panels. A full fixing kit is provided along with fitting instructions.

- Shelf Heights are adjustable in 50mm increments
- The shelving units are supplied with 6mm plywood dividers that slide into machined grooves. These can be added or removed to change the number of compartments required.
- The product is handed and will fit the LH, Passenger side of the van

Notes: Some trimming of end panels may be required due to differences in ply lining kits. For more information / enquiries, please [Contact Vanrack](#) |
